APPLICATION FOR DAIRY BUSINESS INCUBATION AT ENTEBBE DAIRY TRAINING SCHOOL.

Dairy Development Authority (DDA) is a statutory body under the Ministry of Agriculture, Animal Industry and Fisheries whose mission is to provide sustainable dairy development and regulatory services for increased production, processing, marketing, consumption of milk and milk products.

DDA has equipped Entebbe Dairy Training School with dairy processing equipment to establish a Dairy Incubation Center in order to stimulate the establishment and facilitate the growth of dairy technology-based start-up companies and other auxiliary businesses. By fulfilling this mission, the incubator would contribute to job creation, strengthened skilled labour force and provide for enhanced economic wealth and health to the country. Now DDA seeks to incubate dairy processors who are already participating in dairy businesses for at least 2 years.

To apply for Business Incubation at the Dairy Development Authority's Incubation Center in Entebbe, you are required to please provide a detailed Business Plan and Workplan to the undersigned below not later than Friday, 10th September 2021.

Submit To:

Akankiza Samson Mpiira, Director Technical Services, DDA at samson.akankiza@dda.go.ug and/or hard copies addressed to Dairy Development Authority, P. O. Box 34006 Kampala, Plot 1 Kafu Road Nakasero, Kampala.
